REGIONE PUGLIA

We organize in Bari, in collaboration with the Institute of Pathology of the Anderson Cancer Center of Houston, the Second Symposium in Anatomic Pathology, a two days meeting on controversial topics on gynecological neoplasm, neoplastic and inflammatory skin adverse reaction, conjunctival neoplasm, lung pathology and pediatric hemopathology.

The course will be held at the "John Paul II" Oncological Institute on 6 and 7 November 2023.

The program draws on the experience of nationally and internationally renowned speakers.

The teaching program includes lectures and slide seminars and is aimed at emphasizing practical microscopic issues for the diagnostician mainly through the application of conventional histology, with reference to the appropriate ancillary diagnostic techniques.

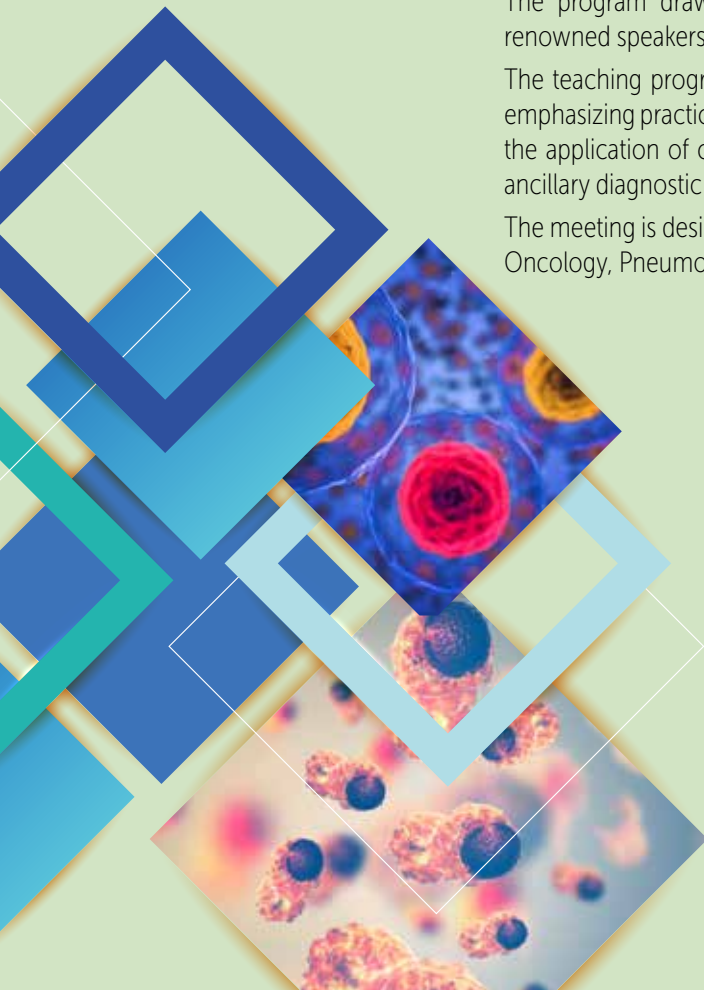

The meeting is designed mainly for resident and M.D. specialists in Pathology, Oncology, Pneumology, Surgery, Biology and Laboratory technicians.
